THE LEADING TRADE FAIR FOR THE LOGISTICS
OF PETROLEUM, GASES AND ENERGY CARRIERS

September 17–19, 2026 | Messe Kassel

ENERGY LOGISTICS IS CHANGING – NEW DEMANDS REQUIRE FRESH FORMATS.

ETX is an **international B2B trade fair** for **logistics, technology and infrastructure** covering **liquid, gaseous and alternative energy carriers**.

It connects suppliers and decision-makers from Germany and abroad who are committed to **safe, efficient** and **future-oriented logistics of petroleum, gases and energy carriers**.

The exhibition highlights both **conventional fuels** and **sustainable renewable energy sources** – from biogenic to synthetic, from liquid to gaseous, from lubricants to wood pellets.

WHAT EXHIBITORS CAN EXPECT:

Visibility among a highly specialized professional audience

A trade fair concept designed for **real relevance, networking** and **in-depth expertise**

Direct connections to key decision-makers in **industry, logistics and the public sector**

ETX unites the key topics of energy logistics – from state-of-the-art vehicle technology to automation and digitalization. The focus is on solutions, services and regulatory requirements that truly matter for the market, covering the entire value chain.

Vehicles & Logistics Solutions

- Commercial and special-purpose vehicles (tank, dangerous goods, cryogenic)
- Military vehicles and civil protection units
- Chassis and bodywork technology
- Intermodal logistics (road, rail, sea)
- Tank containers and modular storage units
- Operating materials, chemicals and additives

Technology & Safety Systems

- Energy loading and safety technology
- Maintenance, inspection and technical services
- Protective equipment and emergency technology
- Sensors, IT and real-time telematics
- ESG-compliant certification and testing systems

Infrastructure & Control

- Infrastructure planning and plant engineering
- Energy and dangerous goods logistics
- Software and control solutions
- Sustainability strategies
- Automation and digitalization of operational processes

BEYOND A TRADE FAIR: NETWORKING. INSIGHTS. ORIENTATION.

ETX brings together decision-makers, developers and users from the logistics of petroleum, gases and energy carriers – and makes innovation tangible.

Beyond the exhibition, the trade fair offers guidance, discussion and real technical depth through:

Innovation Spotlights

New products, technologies and systems take center stage – prominently showcased and designed to capture attention.

Expert Talks & Workshops

From ESG requirements to HVO, e-fuels and hydrogen, through to driver shortages and CO₂ reduction – current topics are presented in a practical way by industry professionals.

Networking that matters

Whether at the stands, in expert meet-ups or in a relaxed evening setting – ETX creates spaces for exchange that truly move you forward.

Live Demonstrations

Complex technology becomes tangible: live showcases demonstrate what new systems can deliver in everyday practice – right on the exhibition grounds.

KASSEL 2026 – WHERE TECHNOLOGY, LOGISTICS AND THE FUTURE MEET.

From 17 to 19 September 2026, Kassel becomes the meeting point for the logistics of petroleum, gases and energy carriers. Centrally located in Germany, perfectly connected and highly functional, Messe Kassel offers the ideal setting for focused business and impressive technology showcases.

Facts that speak for themselves:

- 7,000 m² of exhibition space in Halls 3/4 and 5 plus a spacious outdoor area
- More than 3,000 free parking spaces directly on site
- Compact distances, fair hotel rates and easy travel connections
- Running in parallel with IAA Commercial Vehicles in Hanover – ideal for international guests planning an extended trip

RETHINK SUPPLY — REINVENT LOGISTICS.

ETX is the new international trade fair for companies and decision-makers who develop, supply or operate products, technologies, and services for the logistics of petroleum, gases and energy carriers.

**Show what your solutions can deliver today —
and how they will transform tomorrow.**

ETX provides you with a clearly positioned stage for professional contacts, business development and direct market presence.

JOIN ETX NOW – SHOWCASE YOUR SOLUTION TO THE INDUSTRY.

Use the platform to showcase your expertise
across the entire energy logistics chain.
